

TECHNICAL DATA SHEET

B-RUST REMOVER

PRODUCT DESCRIPTION

Fast-acting gel formulation specifically developed for the removal of rust stains and ferrous oxidation residues from marble, natural stone, concrete, brick, terracotta, and other absorbent masonry surfaces. The advanced formulation reacts with iron oxide deposits, effectively dissolving and removing superficial rust stains caused by metal objects, natural rust, nails and other ferrous contaminants. Its non-acidic, non-aggressive formulation makes it particularly suitable for use on acid-sensitive materials such as polished marble, limestone, travertine, terrazzo, and other calcium-based stones, without causing etching, corrosion, or loss of gloss. Thanks to its high-viscosity gel consistency, the product adheres effectively to both horizontal and vertical surfaces, allowing extended contact time and improved performance on localized stains and large treatment areas.

APPLICATION SURFACES

Marble, marble/resin, limestones, travertine, quartz engineered surfaces and terrazzo surfaces.
For indoor and outdoor use.

CHEMICAL AND PHYSICAL PROPERTIES

APPEARANCE:	Gel
COLOR:	Colourless
DENSITY AT 20°C :	1,05 $\simeq$
SOLUBILITY:	Soluble in water
STORAGE AT 20°C :	24 months in original packaging

HOW TO USE

ALWAYS TEST PRODUCT FIRST following the below product indications before proceeding with complete product application. Cover and protect all surrounding areas before proceeding with application.

SHAKE WELL before using. Wet or dampen surface to be treated before product application. Apply a few drops of product directly to stained area covering completely the rust to be removed. Allow a contact time of 5-10 minutes, until substance has reacted and become a dark purple colour. Remove with a damp cloth, paper towels and rinse completely surface. Multiple applications may be required.

For large areas, product can be applied using a soft bristled brush or spatula. Note: for the removal of eventual remaining purple coloured haze, use VIP 10 for haze removal.

RECOMMENDATIONS

Do not mix with other chemicals. Do not allow product to dry on surface. On stubborn stains, multiple applications may be needed. Allow for adequate ventilation when using product. Do not leave reacted product on surface for long periods of time as purple staining will develop. Eventual staining can be removed using VIP 10 applied directly on surface and left to react. Before use, read completely product label, technical data sheet and safety data sheet. For professional use only.

INDICATED COVERAGE

Not available.

PACKAGING

Available in the following sizes: 250ml, 1 lt

Company with quality system

info@bellinzoni.com www.bellinzoni.com

ATTENTION: Read completely the product label before proceeding with product use. Maintain product in its original container/packaging. Do not disperse packaging in the environment and dispose of separately in accordance with local regulations. Keep out of the reach of children. Always test product first on a small hidden area so to verify final results and product compatibility with material. Product may darken and change the original colour on certain materials. Product does not protect from acid-based substances. While using the product wear indicated protective PPE and clothing and read completely the safety data sheet before use.
