

TECHNICAL DATA SHEET

SUPERLUX E3

PRODUCT DESCRIPTION

Self-polishing solvent based, liquid varnish for polishing and for enhancing colours of corners, bullnoses, edges, undersides, raw materials and difficult areas to polish in marbles, granites, and polished stone surfaces. Easy to apply by brush or cloth, it dries rapidly without requiring mechanical buffing, making it ideal for touch-up work and finishing operations in stone fabrication workshops and on-site installations. Product forms a thin durable high gloss transparent layer on surface which does not yellow, peel or crack over time. Product enhances and shines dull surfaces, eliminating the use of tools and abrasives.

APPLICATION SURFACES

Indicated marbles, granites, agglomerates, stone blocks.
Internal and external use.

CHEMICAL AND PHYSICAL PROPERTIES

APPEARANCE:	Liquid
COLOR:	Transparent
DENSITY AT 20°C :	1,48 $\simeq$
SOLUBILITY:	Insoluble
STORAGE AT 20°C :	24 months in original packaging

HOW TO USE

ALWAYS TEST PRODUCT FIRST following below indications before proceeding with complete product application. Ensure that surfaces to be treated are completely dry and clean, free of dirt, dust, grime and surface incrustations. Cover and protect all surrounding areas before proceeding with application.

Manual application:

- Product is ready for use. Apply a few drops of product onto a clean cotton cloth and proceed to apply to the area to be treated. Apply a thin layer until product is uniformly covering the area to be treated.
- (On absorbent materials, a second coat can be applied after ten minutes from initial application)
- Allow 20-30 minutes for a complete curing time.

Notes: During application, product should be applied to materials with temperature between 10° and 30°C. Maintain product in its original container/packaging. For further information refer to the technical data sheet.

RECOMMENDATIONS

We recommend using SUPERLUX E3 only on materials polished up to an 800 grit. Do not apply to damp surfaces. Treatment will not protect surface from etching caused by acidic substances or general surface wear. Do not apply on linoleum, plastics and Synectic materials. Use in well-ventilated areas. Do not use in high traffic areas. Before use, read completely product label, technical data sheet and safety data sheet.

INDICATED COVERAGE

For the application on marbles, natural stones and granites: (higher than 800 grit), one Liter of product can treat 60/70m²* (*) depending on the number of coats, texture and porosity of the surface.

PACKAGING

Available in the following sizes: 500 ml., 750 ml., 4 Lt., 20 Lt.
